System Enhancement SE 152 June 8, 2019, Release Summary

Issue Date: June 5, 2019

Audience: Human Resource Offices

Release Item	Description
Single Sign-On to Healthcare Bluebook	Add single sign-on link to Healthcare Bluebook in the Other Resources tile on the Manager and Employee landing pages. The link will only be displayed for users who are enrolled in a health insurance plan as the primary subscriber, and only if their enrollment in the health plan is active as of the system date. For the Spouse program, the link will only be shown to the primary, not secondary spouse and for a state employee listed as a dependent under another state employee, the link will only be shown to the subscriber.
Password Reset Notification	On the Password Reset screen, the Continue button will not be enabled until the user selects the type of notification (i.e., mobile phone, notification email, work email). If a user only has one type of notification presented, the radio button for that record will automatically be selected.

Release Item	Description
Premium History Report – Ability to Export	Ability for Human Resource (HR) staff and employees to export the Premium History Report as an Excel or PDF document. Access the report from the Manager or Employee landing page > Insurance Benefits > Premium History > Premium History Report. After selecting a plan type, choose either Download to Excel or Download to PDF to export the report.
Heath Savings Account (HSA) Exceptions	Correct the defect with HSA effective dates. With this release, when an employee selects an early effective date for health coverage, and selects a HDHP plan, the HSA effective date will be tied to the early effective date for HDHP plan.
COBRA Package	The COBRA package sent to former employees following their separation or when retiring will now include the Healthcare Flexible Spending Account (if applicable for the employee), the Health Reimbursement Account (if applicable for the employee) and the COBRA Medicare rates.
